Patents 1 - 47 on transaction database app

[Sort by relevance](#) | [Sort by date \(new first\)](#) | [Sort by date \(old first\)](#)

Did you mean: *transaction database application processor memory source permit OR restricted OR lock OR grant OR right*

Database management system

US Pat. 6016490 - Filed Jan 30, 1998 - Fuji Xerox Co., Ltd.

When a lock cannot be secured for a particular transaction, ... transaction in parallel in the cache resource 15 maintained in the virtual memory source 14. ...

System and method for managing data privacy in a database management system

US Pat. 6275824 - Filed Oct 2, 1998 - NCR Corporation

When the user desires an anonymous transaction, the transaction is routed to ... comprising a processor and a memory, such as a random access memory (RAM). ...

Privacy-enhanced database

US Pat. 6253203 - Filed Oct 2, 1998 - NCR Corporation

When the user desires an anonymous transaction, the transaction is routed to ... comprising a processor and a memory, such as a random access memory (RAM). ...

Data transaction assembly server

US Pat. 6044382 - Filed Jun 20, 1997 - Cyber Fone Technologies, Inc.

The data transaction is received via standard protocols at the database server which, ... these data streams permit the host processor to be dynamically ...

Extensible network management system

US Pat. 6226788 - Filed Jul 22, 1998 - Cisco Technology, Inc.

53 54 where "transaction" indicates the transaction from which this thread is ... are written to the database, all events are collected from the application ...

System and method for managing data privacy in a database management system ...

US Pat. 6480850 - Filed Oct 1, 1999 - NCR Corporation

When the user desires anonymous data, the transaction is routed to the privacy service. ... a processor and a memory, such as a random access memory (RAM). ...

Fine-grained consistency mechanism for optimistic concurrency control using ...

US Pat. 6240413 - Filed Jun 29, 1998 - Sun Microsystems, Inc., BAAN Development, B.V.

This database 124 may reside on a server computer (not is time for the transaction to commit, if a column of a lock group is to be updated, the transaction ...

Dynamic determination of execution sequence

US Pat. 6505228 - Filed Jul 22, 1998 - Cisco Technology, Inc.

its changes, the application uses the transaction commit Release 1.1,

Main memory 1006 also may gram is prepared and compiled using source ...

Computer program product and program storage device for linking and ...

US Pat. 5599949 - Filed Jun 5, 1995 - International Business Machine Corporation

The foundation information database 112 preferably repre- 5 sents a file server.

... a cross merchant gateway 116 and a merchant transaction processor 114 ...

System and method for linking and presenting movies with their underlying ...

US Pat. 5596705 - Filed Mar 20, 1995 - International Business Machines Corporation

The foundation information database 112 preferably represents a file server. ...

transaction processor 114, which are described in US Patent Application ...

Method and apparatus for implementing parallel operations in a database ...

US Pat. 5857180 - Filed Jul 21, 1997 - Oracle Corporation

Background Art Sequential query execution uses one processor and one 15 ...

need to use read lock, or require a two-phased commit in transaction processing ...

Transaction synchronization in a disconnectable computer and network

US Pat. 5991771 - Filed Jul 3, 1997 - Novell, Inc.

One embodiment of the replica processor also includes a transaction logger which

maintains a log of recent updates for each object in the target database. ...

Distributed multi-version commitment ordering protocols for guaranteeing ...

US Pat. 5701480 - Filed Apr 14, 1993 - Digital Equipment Corporation

Instead, updated records are written transaction is committed, the read-write

... 65 source for all of the time stamps. In a multi database environment, ...

Data replication in data warehousing scenarios

US Pat. 6436538 - Filed Oct 7, 1999 - International Business Machines Corporation

2 illustrates an exemplary computer database environment that could be used ...

In a network environment the source site has the application table and the ...

Electronic copyright royalty accounting system using glyphs

US Pat. 5444779 - Filed Jul 29, 1994 - Xerox Corporation

An elec- put of the decoder being connected to the transaction tronic ...

access to the database the paper is manufactured or printed, by application of and ...

Method and apparatus for the transmission, storage, and retrieval of ...

US Pat. 5502576 - Filed Aug 24, 1992 - Ramsay International Corporation

... as well as incorporating calibration controls that permit "on the fly" ...

the stored image corresponding to a specific source document or transaction. ...

System and method for providing merchant information and establishing links ...

US Pat. 5696905 - Filed Mar 20, 1995 - International Business Machines Corporation

To permit the use of specialized hardware and software An index interface ...

be multiple index inter- gateway 116 and a merchant transaction processor 114, ...

Event logging system and method for logging events in a network system

US Pat. 5857190 - Filed Jun 27, 1996 - Microsoft Corporation

The I/O port 30, processor 32, buffer 34, and memory 36 are ... The headend

selects an appropriate database to store event information pertaining to the ...

Host storage management control of outboard data movement using push-pull ...

US Pat. 6247103 - Filed Jan 6, 1998 - International Business Machines Corporation

Application programs determine when something needs to be locked, the scope of the lock, the type of lock required, and the timeframe the lock "should" be ...

System and method for enabling the creation of personalized movie ...

US Pat. 5781730 - Filed Apr 14, 1997 - International Business Machines Corporation

The foundation information database 112 preferably represents a file server. ...

transaction processor 114, which are described in US Patent Application ...

Database recovery apparatus and method of using dual plane nonvolatile memory

US Pat. 5913219 - Filed Feb 4, 1997 - Electronics and Telecommunications Research Institute

Furthermore, the database data processor 403 selects a chip by outputting a ...

In the present application, the memory of the above described structure is ...

System and method for time weighted access frequency based caching for ...

US Pat. 6487638 - Filed Jan 26, 2001 - Dell Products, L.P.

Each server will then have, from a memory management standpoint, ... Processor cache

algorithms generally rely on the locality of reference of their ...

Host storage management control of outboard data movement

US Pat. 6393537 - Filed Jan 6, 1998 - International Business Machines Corporation

Application programs determine when something needs to be locked, the scope of the lock, the type of lock required, and the timeframe the lock "should" be ...

Method and apparatus for securing digital communications

US Pat. 6466780 - Filed Sep 3, 1997 - Interlok Technologies, LLC

Operation of the card 70 is facilitated by an energy source 86, ... comprise a database containing a sequence of fields storing transaction specific codes. ...

System and method for time window access frequency based caching for memory ...

US Pat. 6507693 - Filed Jan 26, 2001 - Dell Products, L.P.

Each server will then have, from a memory management standpoint, ... Processor cache

algorithms generally rely on the locality of reference of their ...

Method for accessing real-time data in an automatic call distribution system

US Pat. 5546455 - Filed Dec 27, 1994 - Aspect Telecommunications

Access to real- 60 time data in shared memory has in the past been limited to

... of the central database server due to limitations in both processor load ...

Generation, archiving, and retrieval of digital images with evoked ...

US Pat. 5493677 - Filed Jun 6, 1994 - Systems Research & Applications Corporation

Memory map B-trees are used to implement NLP database 116, as described in R.

... Database processor 124 stores images and metadata for use by browse ...

Raid LUN creation using proportional disk mapping

US Pat. 6526478 - Filed Feb 2, 2000 - LSI Logic Corporation

Moreover the host 30 contains the main memory (not shown) that is the destination for data read from disks 26 and the source for data written to the disks ...

Communication system control arrangement

US Pat. 4720850 - Filed Mar 14, 1986 - American Telephone and Telegraph Company AT&T Bell Laboratories

Each processor has a version of a "send message" routine which checks whether the ... database management subsystem 802 maintains access right and usage ...

Distributed database management system for servicing application requests in ...
US Pat. 5835757 - Filed Jul 17, 1995 - Siemens Telecom Networks

The off-line representation of the DDI is a source-code written in a formal Data ... of data modules which become part of each group processor load module. ...

Protection of an electronically stored image in a first color space by the ...

US Pat. 5617119 - Filed Jun 7, 1995 - Systems Research & Applications Corporation

Memory map B-trees are used to implement NLP database 116, as described in R.

... In a preferred embodiment, database processor stores images in three ...

Priority and preemption service system for satellite related communication ...

US Pat. 6058307 - Filed Feb 12, 1998 - AMSC Subsidiary Corporation

... Code PPM Pulses per Minute PS Processor Subsystem PSDN Private Switched Data

... Maintainability RDB Relational DataBase REMS Remote Environmental ...

Protection of an electronically stored image in a first color space by the ...

US Pat. 5893101 - Filed Mar 28, 1997 - Systems Research & Applications Corporation

Memory map B-trees are used to implement NLP database 116, as described in R.

... Database processor 124 stores images and metadata for use by browse ...

Network control center for satellite communication system

US Pat. 5842125 - Filed Oct 10, 1996 - AMSC Subsidiary Corporation

... Identification Code 20 PPM Pulses per Minute PS Processor Subsystem PSDN ...

Maintainability 35 RDB Relational DataBase REMS Remote Environmental ...

Data processing system using substantially unique identifiers to identify ...

US Pat. 5978791 - Filed Oct 24, 1997 - Kinetech, Inc.

Groom Source List. Extended mechanisms run within application programs over ...

it is necessary that the processors accessing the shared database use the ...

Priority and preemption service system for satellite related communication ...

US Pat. 6243580 - Filed Nov 23, 1999 - AMSC Subsidiary Corporation

... Identification Code 20 PPM Pulses per Minute PS Processor Subsystem PSDN ...

Maintainability 35 RDB Relational DataBase REMS Remote Environmental ...

System and method for providing merchant information and establishing links ...

US Pat. 5715400 - Filed Jun 1, 1995 - International Business Machines Corporation

7.8 The foundation information database 112 preferably repre- ... and multiple

index information data- gateway 116 and a merchant transaction processor 114, ...

Network operations center for mobile earth terminal satellite communications ...

US Pat. 5926745 - Filed Aug 21, 1996 - AMSC Subsidiary Corporation

... PC Based RFM Control Processor PC-SCP PC Based Systems Control Processor ...

Maintainability RDB Relational DataBase REMS Remote Environmental ...

Multimedia resource reservation system with graphical interface for manual ...

US Pat. 5640595 - Filed Jun 29, 1993 - International Business Machines Corporation

A source for detailing technical Input-Output system (BIOS) which controls basic

hardware ... The RAM 24 is the main memory into which the 10 Services for ...

Multimedia resource reservation system

US Pat. 5819043 - Filed Nov 12, 1996 - International Business Machines Corporation
The RAM 24 is the main memory into which the operating ... is used to store a large amount of data, eg, a multimedia program or large database. ...

Network engineering/systems engineering system for mobile satellite ...

US Pat. 6185409 - Filed Jan 14, 1998 - AMSC Subsidiary Corporation
... PPM Pulses per Minute PS Processor Subsystem PSDN Private Switched Data Network
... Maintainability 20 RDB Relational DataBase REMS Remote Environmental ...

Identifying and requesting data in network using identifiers which are based ...

US Pat. 6415280 - Filed Apr 1, 1999 - Kinetech, Inc., Digital Island, Inc.
Groom Source List. Extended mechanisms run within application programs 2s ...
The data structures can be 65 local to each processor 102 of the system 100, ...

Satellite trunked radio service system

US Pat. 6477370 - Filed Jul 13, 1998 - Motient Service Inc.
... Transaction Router NVM Non- Volatile Memory RTS Reliable Transaction Service
... PC based RFM Control Processor SDR System Design Review PC-SCP PC Based ...

Priority and preemption service system for satellite related communication ...

US Pat. 6542739 - Filed Oct 6, 2000 - Mobile Satellite Ventures, LP
... Maintainability RDB Relational DataBase REMS Remote Environmental ... Matrix RTF Reliable Transaction Protocol RTR Reliable Transaction Router RTS ...

Distributed mobile biometric identification system with a centralized server ...

US Pat. 6317544 - Filed Sep 25, 1997 - Raytheon Company
The asylum database contains information on individuals encountered during an asylum application process. The asylum information is checked to detect and ...

Network operations center for mobile earth terminal satellite communications ...

US Pat. 6343205 - Filed Mar 15, 1999 - Motient Services Inc.
41 42 Qbit 'Qualified Data' bit in X.25 QPSK Quadrature Phase Shift Keying RAM
Random Access Memory RAM Reliability, Availability, Maintainability RDB ...

Cost based optimization of decision support queries using transient views

US Pat. 6275618 - Filed Nov 5, 1998 - International Business Machines Corporation
Architecture In this application, the Cost Based Optimizer 112 is implemented and ... 200 is somewhat similar to the DataJoiner multi-database system, ...

Stay up to date on these results using the [patents RSS feed](#) on [transaction database application processor memory source](#) [permit](#) [OR](#) [restrict](#) [OR](#) [lock](#) [OR](#) [grant](#) [OR](#) [right](#).
